Data Analyst · Analytics Engineer · BI Developer

Sydney NSW · 0405 116 899 · fahadamjad_10@hotmail.com · github.com/fahadamjad009 · fahadamjad009.github.io

S U M M A R Y

Graduate Data Analyst and Analytics Engineer with UTS Master of Data Science (Distinction, WAM 82) and Master of Professional Accounting. Hands-on experience building ML pipelines, data engineering workflows, Power BI / Tableau dashboards, and LLM-powered analytics platforms across FinTech, RegTech, and Energy. 16+ public GitHub projects spanning Azure, Snowflake, dbt, Python, and Streamlit. Strong financial domain fluency from accounting background.

P R O J E C T E X P E R I E N C E (2 0 2 5 – 2 0 2 6)

NYC Taxi & Rideshare Analytics Platform

Azure Data Factory · Databricks · Delta Lake · DuckDB · XGBoost · SHAP · Streamlit · Plotly

- Metadata-driven ADF pipeline ingesting all 4 NYC TLC vehicle classes (Yellow, Green, FHV, HVFHV) 2019–2025 into Azure Data Lake Gen2; Databricks Spark cluster curated ~1.95 billion rows to Delta Lake format with schema normalisation and type casting.
- DuckDB aggregation layer produces 5 dashboard-ready Parquet summaries; XGBoost fare predictor trained on 552K trips achieves $R^2=0.93$, RMSE=\$3.70; SHAP explainability identifies trip distance as dominant feature (mean |SHAP|=\$8.89); deployed permanently on Streamlit Community Cloud.

Global Oil Supply Chain & Infrastructure Dashboard

Python · Snowflake · dbt · Streamlit · EIA Open Data API

- End-to-end data engineering pipeline on Snowflake: EIA API ingestion (9 series, ~98,000 rows) → raw VARIANT staging → dbt transformation layer (9 staging models + dim_date + 9 fact tables in MARTS schema) → interactive Streamlit dashboard.
- Dashboard covers U.S. supply & disposition balance (1920–2026), global production by country, Cushing OK crude storage (WTI delivery point), import grade analysis, and PADD-to-PADD interregional movement matrix; deployed on Streamlit Community Cloud.

ASX Financial Data Pipeline

Apache Airflow · dbt · DuckDB · Docker · Streamlit · Medallion Architecture

- Production-style ELT pipeline with Airflow DAGs, dbt SQL transformations, and a Bronze/Silver/Gold medallion warehouse in DuckDB; full data lineage and quality tests.
- Containerised with Docker and surfaced in a Streamlit dashboard with interactive drill-down filtering.

US Bank Financial KPI Command Centre

Power BI · DAX · Python · SEC EDGAR XBRL · Star Schema

- Executive-grade Power BI dashboard analysing 10 US large-cap banks from SEC EDGAR XBRL filings; authored DAX time intelligence, semi-additive measures, and peer-group ranking.
- Validated against JPM 2024 \$58.47B net income; star schema with dimension/fact tables for flexible cross-bank analysis.

FinTech Fraud Detection Platform

Python · XGBoost · SHAP · FastAPI · Streamlit · PSI/KS Drift Monitoring

- End-to-end fraud ML platform: XGBoost with cost-based decisioning, PSI/KS drift monitoring, decile lift analysis, and SHAP explainability deployed via FastAPI + Streamlit.
- Optimised decision threshold for business cost ratio with dollar-weighted evaluation metrics.

LLM Regulatory Intelligence Agent

Python · LangGraph · LangChain · Llama 3.2 · FAISS · BM25 · FastAPI

- Multi-agent RAG system ingesting APRA, AUSTRAC, and ASIC guidance; hybrid retrieval (FAISS + BM25 + RRF) with citation-grounded answers and fail-closed confidence gating.
- FastAPI + Streamlit deployment for regulatory Q&A and SAR narrative generation.

Financial News Sentiment Classifier

Python · PyTorch · DistilBERT · Hugging Face · Fine-tuning

- Fine-tuned DistilBERT on financial news corpus; achieved 87.9% test accuracy with F1 evaluation and confusion matrix analysis.

ASX Tableau Market Intelligence

Tableau Desktop · Python · yfinance · LOD Expressions · Tableau Public

- 9-sheet interactive Tableau dashboard across 36 ASX tickers / 11 GICS sectors with LOD expressions, correlation heatmap, and 4-point Story narrative; live on Tableau Public.

EDUCATION

Master of Data Science and Innovation University of Technology Sydney · Distinction, WAM 82	2023–2024
Master of Professional Accounting Kings Own Institute, Sydney	2019–2021
Bachelor of Business and Commerce University of Southern Queensland	2017–2018

TECHNICAL SKILLS

Languages	Python, SQL, DAX, M (Power Query)
ML / AI	XGBoost, LightGBM, PyTorch, scikit-learn, SHAP, LangChain, LangGraph, Hugging Face, fine-tuning, RAG, FAISS, BM25
Data Engineering	Azure Data Factory, Databricks, Delta Lake, Apache Airflow, dbt, DuckDB, Pandas, FastAPI, ETL/ELT, star schema, Parquet, Docker
BI & Visualisation	Power BI (DAX, time intelligence), Tableau (LOD, Story Points), Streamlit, Plotly
Cloud & Databases	Azure (ADF, ADLS Gen2, Databricks), Snowflake, AWS (EC2, S3), GCP (BigQuery), PostgreSQL, MongoDB
Domains	Financial analytics, fraud/risk, RegTech, energy/commodities, churn, credit risk, NLP, decentralised identity
